£35,000 – Technology Specialist – Reception, Delivery and Web– BBC

Listed by Daryn Carter on December 17th.
Jobs – Systems/Network/IT | 260 views

We are looking to recruit a Technology Specialist with excellent technical knowledge and skills along with a good understanding of Service Management principles. You'll be working with other technical staff and will shape and then rapidly deliver technical support and technical developments within a service management framework, which will be measured against key performance indicators (KPIs). Having experience of working collaboratively you'll also have excellent interpersonal and team working skills with the resilience and enthusiasm to bring new and creative ideas to BBC Monitoring.

Essential skills:
Unix (particularly AIX and Red Hat)
Perl

Desirable:
ITIL
RTF
VBA, specifically Word
XML (NewsML would also be good)
Experience of dealing directly with customers
Experience in using communications protocols such as FTP, SMTP, HTTP, SSH

No CV's accepted

Great people shouldn't have a resume.

Here's why: A resume is an excuse to reject you. Once you send me your resume, I can say, "oh, they're missing this or they're missing that," and boom, you're out.

</godin>
